### RITCHIE BROS. AUCTIONEERS ANNOUNCES FOURTH QUARTER AND FISCAL 2013 YEAR-END RESULTS

**Record fourth quarter gross auction proceeds, revenue and earnings**

**FOR IMMEDIATE RELEASE: March 3, 2014**

*All dollar amounts are presented in U.S. dollars.*

**VANCOUVER, British Columbia** – Ritchie Bros. Auctioneers Incorporated (NYSE and TSX: RBA, the “Company” or “Ritchie Bros.”), the world’s largest industrial auctioneer, announces record fourth quarter net earnings<sup>1</sup> of \$33.7 million, or \$0.31 per diluted share, for the three months ended December 31, 2013. This is a 53% increase compared to net earnings of \$22.1 million, or \$0.21 per diluted share, generated in the same quarter last year. The Company’s revenues for the fourth quarter of 2013 grew by 12% to record \$131.2 million compared to \$117.1 million for the same period in 2012. Selling, general, and administrative expenses, excluding depreciation and amortization, for the fourth quarter of 2013 increased by 7% from the same period in 2012.

Excluding the after-tax effects of excess property sales and other non-recurring items, the Company generated record fourth quarter adjusted net earnings of \$30.3 million, or \$0.28 per diluted share during the quarter ended December 31, 2013. This compares to adjusted net earnings of \$22.4 million, or \$0.21 per diluted share in the same quarter last year, representing a 36% increase. Adjusted net earnings is a non-GAAP financial measure<sup>2</sup>.

For the year ended December 31, 2013, Ritchie Bros. generated net earnings of \$93.8 million, or \$0.88 per diluted share, an 18% increase, compared to net earnings of \$79.6 million, or \$0.74 per diluted share in 2012. Excluding the after-tax effects of excess property sales and other non-recurring items, adjusted net earnings for the year ended December 31, 2013 were \$90.0 million, or \$0.84 per diluted share, compared adjusted net earnings of \$82.6 million, or \$0.77 per diluted share in 2012. This represents a 9% increase in adjusted net earnings over the prior year. During 2013, the Company generated annual revenues of \$467.4 million, an increase of 7% compared to revenues of \$438.0 million in 2012.

“Our performance this quarter demonstrated the operating leverage inherent to Ritchie Bros.’ business model. The record \$1.1 billion of gross auction proceeds generated during the fourth quarter, combined with a strong revenue rate and a 38% EBITDA margin, produced more earnings for the company than we’ve ever achieved in the fourth quarter before,” said Peter Blake, CEO of Ritchie Bros. Auctioneers.

Mr. Blake continued, “Over the course of 2013, we maintained a disciplined approach to our underwritten business, the results of which bolstered our revenue rate to a record level for the fiscal year. We expect this ongoing strategy, combined with our continued focus on growing our sales team, will position us well in 2014 to capitalize on the improving mix and supply of used equipment coming to market.”

During 2013, the Company conducted 245 unreserved industrial auctions in 17 countries throughout North America, Central America, Europe, the Middle East, Africa, Asia and Australia.

<sup>1</sup> Net earnings, adjusted net earnings, and diluted earnings per share have been presented excluding non-controlling interest and represent only those amounts attributable to equity holders of the parent, to conform with the presentation adopted in our consolidated financial statements.

<sup>2</sup> See Non-GAAP Financial Measures for a description of this measure and refer to the accompanying tables for reconciliations of this measure to net earnings attributable to equity holders of the parent.

## **Gross auction proceeds and revenues**

Gross auction proceeds ("GAP") were \$1.1 billion during the fourth quarter of 2013, an 11% increase compared to the same quarter of 2012 and a record for the fourth quarter. This increase was due in part to the timing of some auctions that did not occur in the fourth quarter last year. EquipmentOne contributed \$23.0 million to GAP in the fourth quarter of 2013 compared to \$27.4 million in the same period of 2012. Gross auction proceeds is a non-GAAP financial measure<sup>3</sup>. The Company's revenue rate (revenues as a percentage of GAP) during the fourth quarter of 2013 was 11.82%, marginally higher than the 11.71% revenue rate achieved in the same quarter of 2012.

For the year ended December 31, 2013, GAP was \$3.8 billion, a 2% decrease from the \$3.9 billion generated in 2012. EquipmentOne contributed \$88.6 million to GAP during 2013, compared to \$64.9 million in 2012. The Company's revenue rate was 12.24% for the year ended December 31, 2013 - a record annual revenue rate for the Company, compared to 11.21% in 2012.

Revenue growth in both the fourth quarter and year ended December 31, 2013 was aided by an increased revenue rate. The improvement in revenue rate is consistent with the Company's strategic focus on managing the performance of its at risk (or underwritten) business. The Company's at risk business, which is comprised of guarantee and inventory contracts, represented 34% of GAP in the fourth quarter of 2013, compared to 28% in the fourth quarter of 2012. The at risk business represented 28% of GAP for the year ended December 31, 2013, compared to 32% in 2012.

## **Quarterly dividend**

On January 20, 2014, Ritchie Bros. declared a quarterly dividend of \$0.13 per common share payable on March 7, 2014 to shareholders of record on February 14, 2014.

Ritchie Bros. paid out total dividends of \$53.9 million during 2013, compared to \$50.0 million in 2012.

## **CEO and Board change**

On October 8, 2013, Peter Blake, CEO and Director, announced that he will resign once a new CEO has been appointed by the Board. The selection process is progressing well, and several highly qualified candidates have been identified by the Search Committee. Mr. Blake will continue to lead the Company until the leadership transition is complete, to ensure minimal disruption.

Related to this leadership transition, both Peter Blake and Robert Murdoch, Chairman of the Board, have agreed to continue on the Board until a successful leadership transition occurs. As a result, both Messrs. Blake and Murdoch will stand for re-election as Directors at the Company's 2014 Annual General Meeting of Shareholders. It is expected that they will step down from their Board positions after the leadership change and transition is duly complete. At the time of Mr. Murdoch's retirement from the Board – due to reaching the mandatory age limit – Beverley Briscoe, currently Deputy Chair, is expected to become Chair of the Board, as previously announced.

## **Online bidding statistics**

Ritchie Bros. sold over \$1.4 billion of equipment, trucks and other assets to online buyers during 2013, an 8% increase compared to 2012 and the highest annual amount sold online by the Company. Online buyers represented 37% of GAP during 2013. Internet bidders comprised over 60% of the total bidder registrations at Ritchie Bros. industrial auctions in the fourth quarter of 2013, and over 55% for the year ended December 31, 2013.

## **Website statistics**

The Ritchie Bros. website ([www.rbauktion.com](http://www.rbauktion.com)), which is a gateway to our online bidding system and showcases upcoming auctions and equipment to be sold, attracted roughly 6.2 million unique visitors in 2013, an 11% increase compared to 2012.

A replay will be available on the website shortly after the call.

## Non-GAAP measures

The Company defines adjusted net earnings as financial statement net earnings excluding the after-tax effects of excess property sales and other non-recurring items. Adjusted net earnings is a non-GAAP financial measure that does not have a standardized meaning, and is therefore unlikely to be comparable to similar measures presented by other companies. The Company believes that comparing adjusted net earnings for different financial periods provides more useful information about the growth or decline of its net earnings for the relevant financial period and eliminates the impact of items the Company does not consider to be part of its normal operating results.

The term gross auction proceeds represents the total proceeds from all items sold by Ritchie Bros. The Company's definition of GAP may differ from those used by other participants in its industry. GAP is an important measure the Company uses in comparing and assessing its operating performance. It is not a measure of the Company's financial performance, liquidity or revenue and is not presented in the Company's consolidated financial statements. The Company believes that revenues, which is the most directly comparable measure in its consolidated income statements, and certain other line items, are best understood by considering their relationship to GAP. Revenues are earned by Ritchie Bros. in the course of conducting its auctions and online marketplace transactions, and consist primarily of commissions earned on consigned equipment and net profit on the sale of equipment purchased by the Company and sold in the same manner as consigned equipment.
